

Clearing Browser Cache in Chrome

1. Click the 3 vertical dots in the top right corner of Chrome
2. Click **Settings** (near bottom)
3. Click **Privacy and security** in the left navigation bar
4. Select **Clear browsing data** under the Privacy and security block
5. Check or uncheck the boxes so that only the **Cached images and files** checkbox is checked
6. Select the **Time range** in the box at the top of the window to be **All time**
7. Click the blue Clear data button
8. Close the Chrome browser
9. Restart the Chrome browser
